Professional Experience

American Lung Association - Web Developer, National Senior Manager | Chicago, IL July 2016 - Present

- Architected and implemented an API-driven data retrieval system for the annual signature report, reducing project turnaround time from one week to under four hours.
- Engineered a front-end caching strategy for API calls using JavaScript, significantly reducing redundant server requests and improving application performance.
- Leveraged AI tools to accelerate project initialization, automate repetitive coding tasks, and optimize function development.
- Train junior developers and content specialists in HTML, CSS, and JavaScript.
- Engineer JavaScript front-end applications using Vanilla, jQuery, and ReactJS.
- Maintain Amazon AWS EC2 server using Node.JS and ExpressJS for MySQL database API calls.
- Establish GitHub best practices for the organization.
- Directed development and continuous integration of RESTful APIs across three major projects over 24 months, increasing data throughput by 38% using Node.js, ExpressJS, directly supporting 12+ cross-functional team deployments while meeting quarterly SLA targets.
- Promoted from National Manager Web Developer to National Senior Manager Web Developer in 2023
- Promoted from Specialist Web Developer to National Manager Web Developer in 2019

General Assembly - Student Software Engineer | Chicago, IL February 2016 - May 2016

- Focused heavily on Node.js with Express, MongoDB, front-end Javascript with jQuery and React in a full-time course.

Sports Ideas, Inc. - Bike Mechanic and Sales Associate | Chicago, IL January 2015 - December 2016

- Diagnosed component issues and evaluate mechanical significance of repair while reaching target deadline of 1 week turnaround.
- Navigated repair options, explaining costs for various repairs and finding the best solution for customer.
- Generated sales of bicycles based on customer needs.

The Chainlink, LLC. - Sales & Marketing Intern | Chicago, IL October 2013 - May 2014

- Managed online ad server via Adbutler using JavaScript, HTML, CSS with monthly check-ins with clients.
- Liaison with web developer, director, and community for designation of new site features and categorization.
- Organized website features geared specifically for local, online, niche community.

CrowdSource, LLC. - Article Writer | Remote, USA November 2012 - October 2013

- Authored articles requiring specific guidelines and strict adherence to APA style grammar.
 - Achieved "Top-Tier Writer" status through advanced testing and approval from professional editors.
-
